CHAUTAUQUA COUNTY COASTAL WORK MAP MEETING

Wednesday, December 6, 2017 | 1:00 P.M. - 3:00 P.M. (ET)

Chautauqua County Office of Emergency Management
2 Academy Street (Training Rooms 1 & 2)
Mayville, New York 14757

OVERVIEW

The Region II office of the Federal Emergency Management Agency (FEMA) initiated a coastal study on the Great Lakes, affecting shorelines in Chautauqua, Erie, Niagara, Wayne, Monroe, Orleans, Cayuga, Oswego, and Jefferson counties. The project's goal was to revise outdated maps to reflect current coastal flood hazards along the Great Lakes with advances in NFIP policies, technologies, and new methodology. Work maps, which will show updated flood risk, will be made available during the meeting for the following communities:

Chautauqua: Town of Hanover, Village of Silver Creek, Town of Sheridan, Town of Dunkirk, City of Dunkirk, Town of Pomfret, Town of Portland, Town of Westfield, Town of Ripley

AGENDA

- Introductions
- Value of updated coastal work maps for your community
- Review updated flood-risk data and important next steps in the Risk MAP process
- Mitigation opportunities in your community
- Working session to review maps
